1. The office action mailed on 16 July 2003 is withdrawn in view of the newly cited U.S. Patent No. 3907236 and the amendment received on 22 September 2003 has been entered.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Silvey et al. in combination with Sims, Jr. The Silvey et al. reference discloses the utilization of [2] as recited in the claim. The difference between the Silvey et al. reference and the claim is that the claims recites the utilization of a GPS system with a float and tether for a diver. The Sims, Jr. reference teaches that it was well known in the art for a diver to utilize a reel to manage a tether that is also connected to a float. It would have been

obvious to modify the Silvey et al. reference to utilize a reel as motivated by the Sims, Jr. reference to enable the Silvey et al. system to deploy a tether more easily.

4. Claims 1-10, 12, 13, 15-20, 22, 23 and 25 are allowed.
